

# GEORGE KING

**FROM ZERO RACING EXPERIENCE TO  
CHAMPIONSHIP WINS,**

GEORGE KING IS ONE OF MOTORSPORT'S FASTEST-  
ASCENDING YOUNG DRIVERS.

# ABOUT GEORGE KING

**AGE: 25 | NATIONALITY: BRITISH**  
**FIA GRADE: SILVER**

George King grew up with a passion for Motorsport, **his father being a racing driver himself in the 1990's**, saw George follow in his father's footsteps & he entered his first car race in October 2020. With no prior racing experience or any karting experience to his name George quickly gained the respect of his racing peers.

The Essex born George King acclimatized quickly, joining the James Winslow Racing training programme he amassed **16 Victories, 43 podiums, 16 pole positions, 19 fastest laps and 7 lap records in 67 races & won his first championship title**. All this in just 2 and half seasons of racing in, Britain, Europe (France, Belgium, Germany, Italy, Spain & Portugal) and also a season in the UAE at Dubai & Abu Dhabi.

**In 2023**, George stepped up to LMP3, winning his debut race at Paul Ricard Circuit and winning the overall championship. George also competed in his second season of the LMP4 - Ligier European Series, joining championship winning team Virage, eventually finishing as Vice Champion.

**16 WINS,  
43 PODIUMS,  
16 POLES —  
ALL ACHIEVED  
WITHIN 67 RACES.**

# CAREER GOALS / AMBITIONS

George King is an enthusiastic and ambitious young racing driver with sights firmly set on the highest echelons of Motorsport. Having gone against the grain and eschewed karting and single-seaters with the singular aim of making it to F1, he has nevertheless devoted himself to reaching the upper echelons of the sport, especially in sportscars.

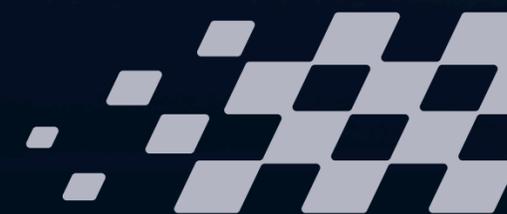

From starting out in a humble Mazda MX-5, he has nurtured the ambition of becoming a professional driver representing a major manufacturer in the biggest endurance races on the planet, with the ultimate goal of taking that manufacturer to the top step of the podium at the Le Mans 24 Hours.

To that end, George is plying his trade — successfully — in both single-make and openfield sports prototype competitions around Europe. He has a dedicated routine designed to hone both his cockpit skills and overall fitness, including daily physical workouts and regular simulator training sessions.

Along with his management team, George aims to project a professional approach to his career, one which will hopefully accelerate his route to the very top — and make everyone aware of his ability.

**A DISCIPLINED, PROFESSIONAL  
ATHLETE BUILDING HIS WAY TO THE  
HIGHEST LEVELS OF MOTORSPORT.**
